Camouflaging

WHAT IS PERMANENT MAKEUP?

Permanent makeup is a medically developed procedure whereby pigments are implanted into the outer layer of skin to create a lasting cosmetic effect. Although the permanence of the application depends on several factors, including the color we choose, your body chemistry and sun exposure, my clients are very pleased with the long lasting results. There are several types of application methods, such as micro-pigmentation or cosmetic tattooing, micro blading, the use of a digital rotary machine and coil machine, and of course, manually. My expertise includes all methods, though I prefer the manual SofTap needle, especially in the application of eyeliner, for the most comfortable, natural looking results. In regards to other areas of the face, we will discuss your specific skin type and your desires to determine what will work best. All questions can be answered in your **FREE** consultation!

EYEBROWS

Eyebrows are my most popular procedure! No more worries about how to expertly shape your eyebrows: I will measure and create a custom brow shape just for you. You can see and approve the shape before I begin. No need to remove existing brow hair - I work to enhance what you currently have. Although eyebrows may appear slightly darker for the first few days, you can return to work the very next day!

EYELINER

Imagine how wonderful it would be to experience a day with your many activities without your eyeliner wearing off! With the use of topical anesthetics combined with the SofTap Hand Tool, the application of permanent eyeliner is as comfortable and least invasive as possible. You will experience minor swelling, as if you've had a good cry; however, the swelling subsides in as little as 3 days. Please visit my TotallyCoolMakeup FB page for more "before and after" photos.

LIPS

Give your lips a **BOOST** of color and a natural appearance with my permanent lip liner and tint. Once we choose your color category, I will perform a patch test to ensure the lips will heal to the desired color. Call me with any questions regarding this pain free procedure!

AREOLA TATTOOING

Areola tattooing is a simple, fast procedure and the finishing touch to breast reconstruction. Whether you are matching an existing nipple, creating a new one, or if you simply want to enlarge the area or add a color boost, this easy procedure is for you! In a safe, comfortable environment, combine this application with the Scar Reduction procedure for ultimate lasting results.

SKIN NEEDLING/MICRO NEEDLING

Please see my separate brochure for information regarding this service.

ABOUT MYSELF

"Growing up overseas, I developed an interest in art and fashion. I received my first cosmetic tattoo at the age of 18 and my confidence soared! What a great feeling to be free of those embarrassing makeup smudges! Soon thereafter, I channeled my interests into a very rewarding career in permanent cosmetic artistry. It brings me great joy to help others conquer the same fears I faced to create the best possible YOU!

- Anyone with hair loss due to chemo, alopecia or aging
- Those with allergies, sensitive skin or aging skin
- Anyone who likes to be active
- Those who have undergone Breast Reconstructive Surgery
- Those with physical limitations
- Anyone who is looking to save time
- Or anyone who simply needs a color boost and extra confidence

QUOTE FROM A CLIENT

"Kelly did a great job on my eyebrows. I've been through chemo, and even though my hair grew back, I just wanted that extra boost of confidence to look and feel great. This procedure is ideal before or after chemo!"

— Helen Umbdenstock, Salon Owner
